COMMERCIAL FLEET WASH PROGRAM

MORE SHINE IN LESS TIME SAVING YOUR COMPANY MONEY

STEP ONE:

Choose LEVEL and quantity of washes

STEP TWO:

Choose how you would like to distribute your washes:

A. Washes can be distributed as wash codes on a spreadsheet which you can distribute individually to your drivers via text, email, or over the phone. Each wash code is single use and offers flexibility.

B. Washes can be distributed on multiple unique RFID tags for each vehicle on the fleet account. Each time a fleet vehicle containing an RFID tag visits Mint Smartwash, a wash will be charged to the Fleet Account
